

RESEARCH — Bencal Corporate Naming Convention

Research basis: 27 firms benchmarked across North America and Europe. Source documents read: org chart INVESTOR_RELATIONS_2026-05-27_Chart_Bencal_Organization.html and tear sheet INVESTOR_RELATIONS_Woodfine LPs_2026_01_06_Tear Sheet_Alternatives Investments_Woodfine_FIN.docx.

1. Current Structure

Node	Current name	Code	Role
100	Kiel Capital Inc.	BCL-CA-01-HLD	Personal holding company
101	Elzen Holdings Inc.	—	Personal holding company
95	Bencal Asset Management Inc.	BCL-CA-01-OPR	Manager / Promoter
95b	Bencal Asset Management Inc. (duplicate)	BCL-CA-01-OPR	Manager — second instance
96	Bencal Special Purpose 1 Inc.	BCL-CA-01-AST	SPV-GP (SPV 1)
97	Bencal Special Purpose 2 Inc.	BCL-CA-02-ADM	SPV-GP (SPV 2)
98	Bencal Special Purpose 2 Limited Partnership	BCL-CA-02-AST	SPV-LP (SPV 2)
102	WCP Allocation and Sales Agreement	—	

Node	Current name	Code	Role
			Common Shares agreement
103	Bencal Special Purpose • Inc.	BCL-CA-0•-AST	Future SPV placeholder

Code collision: nodes 95 and 103-upper both carry BCL-CA-01-0PR. Addressed in §5.

2. Four Naming Deliverables

A. Parent Company Name

The dominant 2026 pattern among institutional alternatives firms is **coined brand + minimal legal suffix, no descriptor**. Brookfield dropped “Asset Management” from its parent in 2022. Blackstone, KKR, TPG, and Apollo converted to plain Inc. between 2018–2022. ICG formally shed “Intermediate Capital Group” in favour of ICG plc at its July 2025 AGM.

Rank	Candidate	Rationale	5-year durability
1	Bencal Corporation	Mirrors Brookfield Corporation post-2022; signals balance-sheet substance, not “fund manager only”; cleanest institutional signal in 2026; works in BC as Ltd.	Excellent — “Corporation” has no semantic content to age
2	Bencal Inc.	Mirrors Blackstone Inc., TPG Inc.; maximally stripped-	Excellent — no descriptor to retire

Rank	Candidate	Rationale	5-year durability
3	Bencal Group Inc.	down; strongest if Bencal is a pure investment manager rather than a diversified HoldCo Mirrors Carlyle Group; traditional institutional register; “Group” is holding but durable	Good — “Group” is slightly legacy but not stale

Not recommended at parent tier: Bencal Asset Management Inc., Bencal Capital Inc., Bencal Partners Inc., Bencal Holdings Inc. (acceptable only at intermediate tier), Bencal Alternatives.

B. Operating / Management Subsidiary

This entity will hold the exempt-market dealer or portfolio-manager licence. The name must register as a fiduciary investment manager, not a brokerage or bank.

Rank	Candidate	Rationale
1	Bencal Investment Counsel Inc.	OSC-recognized category; distinctively Canadian (Hamblin Watsa, Mawer Investment Management, Leith Wheeler Investment Counsel); strongest fiduciary signal; differentiates from US-pattern “Management”
2	Bencal Investment Management Inc.	Most institutional, full-spectrum; better

Rank	Candidate	Rationale
		if cross-border AUM is material and US LPs are priority; mirrors Hamilton Lane, Neuberger Berman Advisers

Note on the two-tier model: Following the Brookfield pattern, the parent (Bencal Corporation) holds the operating manager (Bencal Investment Counsel Inc.), which in turn acts as GP and promoter for all vehicle series. “Asset Management” remains acceptable at the Tier 2 level even after being retired at Tier 1.

C. SPV + Club Deal Naming Convention

Structural distinction

Type	Investor count	Characteristics
Private SPV	1-3 investors	Bespoke, single-asset or single-financing; typically one lead investor
Club Deal	10-300 investors	Subscription-agreement based; Bencal acts as promoter; similar mechanics to a private fund without full fund-registration

Recommendation: Category-split, Arabic numerals

All 27 benchmarked firms organize vehicles into **named strategy families**, each with its own sequential numbering. A single sequential stream (Bencal Fund 1, 2, 3...) is absent from institutional practice and signals an early-stage single-strategy manager.

Strategy categories for Bencal:

Category	Scope
Credit	Debt, mezzanine, income-generating structures
Real Assets	Real estate, infrastructure,

Category	Scope
	tangible-asset direct deals
Equity	Growth equity, co-investment, direct equity

Arabic vs. Roman numerals: Arabic numerals are preferred for Club Deals (Warburg Pincus Global Growth 14 model). Roman numerals are acceptable for named-strategy series but feel increasingly legacy.
Recommendation: Arabic.

Club Deal naming pattern

GP corp (one per strategy, standing entity):

Bencal Credit Partners Inc.
Bencal Real Assets Partners Inc.
Bencal Equity Partners Inc.

Club Deal LP (per vehicle):

Bencal Credit Club 1 LP
Bencal Real Assets Club 1 LP
Bencal Equity Club 1 LP
Bencal Real Assets Club 2 LP

Private SPV naming pattern — PSP place-name approach

PSP Investments names private SPVs after Canadian geographical names — the strategy/vintage/sector is completely absent from the LP name. The GP corp carries the Bencal brand; the LP carries a place name.

GP corp (standing, one for all private SPVs):

Bencal Private Investments Inc.

Private SPV LP (per deal, no Bencal mark):

Sturgeon Bay Investments LP
Bella Coola Investments LP
Kicking Horse Investments LP
Sooke Investments LP
Clearwater Investments LP

This pattern is more durable than extending the fund-series name because: - Discloses nothing about strategy, vintage, or sector - Never requires a version number - Is impossible for a competitor to predict or replicate - Works equally well for credit, real estate, or equity

Maintain a curated register of 20-30 BC/Canadian geographical names for ongoing use.

Access / perpetual vehicle (if Bencal distributes to private wealth channel)

Bencal Private Credit Fund
Bencal Real Assets Fund

No number; designed for ongoing subscription like BREIT / BCRED model.

D. Securities Distribution Entity

This entity registers as an exempt-market dealer (EMD) under NI 31-103 or a restricted dealer, and distributes Bencal's club deal subscriptions.

Rank	Candidate	Rationale
1	Bencal Securities Inc.	Standard Canadian EMD naming pattern; clean, mirrors Canaccord Genuity Securities, Raymond James Ltd.; regulators recognize it immediately
2	Bencal Capital Markets Inc.	Broader scope; works pre- and post-dealer registration; suitable if Bencal anticipates moving beyond EMD to full investment dealer over time

Not recommended: Bencal Private Wealth Inc. (retail-brokerage signal), Bencal Distribution Inc. (product-company register), Bencal Placement Inc. (European idiom, unfamiliar to OSC).

3. Words to Avoid

Word / Phrase	Why to avoid	Preferred alternative
Alternative / Alternatives	Zero benchmarked firms use it in entity names; magazine-section vocabulary; Apollo uses “Aligned Alternatives” only at fund level	Omit; use strategy descriptors (Credit, Real Assets)
Capital (parent tier)	Saturated; elite firms (Partners Group, Ardian, Onex, Fairfax) deliberately avoid at topco	Acceptable at Tier 2 operating entity or fund name only
Private Wealth / Wealth Management	Retail-brokerage signal; wrong register for institutional GP/PM; pigeonholes the firm	Use “Securities” or “Capital Markets” for distribution entity
Asset Management (parent tier)	Brookfield deleted it from parent in 2022; ICG shed “Intermediate Capital Group” in 2025; trend is accelerating	Retain only at Tier 2 operating manager if needed
Holdings (parent tier)	Survives at intermediate tier (Blackstone Holdings, Brookfield Oaktree Holdings); reads as internal entity, not brand-forward parent	Use “Corporation” or “Inc.” at parent; reserve “Holdings” for intermediate holding vehicles

Word / Phrase	Why to avoid	Preferred alternative
Global	Ubiquitous to the point of invisibility; obligatory rather than differentiating	Omit; geography is implied by investor base
Advisors / Advisory	Mutual-fund / RIA / family-office register; signals smaller AUM	Use “Counsel” (Canadian fiduciary) or “Management”
Ventures	Venture capital flavor; wrong register for real-assets and credit strategies	Omit entirely
Trust	Canadian regulatory protection; cannot be used without trust-company licence	Omit
Fund (in entity name)	Implies regulatory registration; use only for registered vehicles or access funds	Use “Club”, “Partners”, or place-name for unregistered SPVs

4. Company Code Convention

Current format: BCL-CA-NN-TTT - BCL = Bencal brand abbreviation - CA = country code (ISO 2-letter) - NN = two-digit entity sequence number - TTT = role type (HLD / OPR / ADM / AST / AGT / SEC)

Current collision: both BCL-CA-01-OPR codes are assigned to Node 95 (Asset Management Inc.) and to the future operating company (Node 103-upper / Bencal Operating Corp.). Recommend:

Entity	Proposed code	Notes
Kiel Capital Inc.	BCL-CA-01-HLD	Unchanged
Elzen Holdings Inc.	BCL-CA-02-HLD	Assign code
Bencal Corporation (new parent)	BCL-CA-01-PAR	New type: PAR = parent
Bencal Investment Counsel Inc.	BCL-CA-01-OPR	Manager / Promoter
Future operating company	BCL-CA-02-OPR	Separate sequence slot
Bencal Private Investments Inc.	BCL-CA-01-GPR	GPR = GP (private SPVs)
Bencal Credit Partners Inc.	BCL-CA-02-GPR	GP (Credit club deals)
Bencal Real Assets Partners Inc.	BCL-CA-03-GPR	GP (Real Assets club deals)
Bencal Securities Inc.	BCL-CA-01-SEC	EMD / distribution
Club Deal LP (per vehicle)	BCL-CA-NN-AST	Sequential per LP

On the BPC abbreviation: if the parent renames to Bencal Partners Corporation or similar, the prefix migrates to BPC. All existing BCL codes remain valid for existing entities; new entities use BPC. A one-time code migration is not required.

5. Recommended Full Corporate Stack

Research trail

Done

1. **North American hyperscaler naming research** — 13 firms benchmarked (Blackstone, KKR, Apollo, Carlyle, Ares, Brookfield, TPG, Warburg Pincus, General Atlantic, Blue Owl, Hamilton Lane, Neuberger Berman, Oaktree). SEC filings, Wikipedia, Bloomberg, firm websites verified. Key finding: “Bencal Corporation” mirrors the 2022 Brookfield Corporation rename — the single most transferable structural precedent.

2. **European and Canadian institutional naming research** — 14 firms benchmarked (Partners Group, Ardian, Tikehau, Eurazeo, ICG, Bridgepoint, CVC, Antin, Sagard, CDPQ/La Caisse, PSP, Fiera, Onex, Fairfax). Key finding: ICG shed “Intermediate Capital Group” at July 2025 AGM — the clearest current signal that descriptor-shedding is accelerating. PSP’s place-name SPV pattern is the most transferable innovation for Bencal’s private SPV series.
3. **Source document review** — org chart HTML and Woodfine LPs tear sheet read. Confirmed entity structure, code collision, and current brand language. Tear sheet confirms “Alternatives” is already recognized as a fading descriptor internally.
