

Key Plans Index

Private Office and the five Professional Office sub-types (Index entries 1–3 and 9–37) — zone depths and key plan areas reconciled against the V3 master Summary table (January 6, 2026). Token sources: professional-office-subtypes.dtcg.json and building-width-calculator.dtcg.json in woodfine-bim-library/tokens/bim/.

Comparison Table

Values reconciled against the V3 Summary table (DISCOVERY_MCorp_Sketches_Key Plans_Summary_Notes, 2026-01-06) and mirrored in building-width-calculator.dtcg.json + professional-office-subtypes.dtcg.json. Building Width = 2 × (Z1 + Z2) + Z3. Key Plan sizes are Small / Medium / Large completed-sample footprints.

Zone 1 — Habitat (desks)

Zone 2 — Magazine (storage)

Zone 3 — Corridor (circulation)

Professional Office Sub-types — I

Each sub-type declares three FFE tile-codes (M/B/L/A/C-1 = 1,100 SF, -2 = 1,400 SF, -3 = 800 SF) representing 1/4-floor sub-allocations. Key Plan footprints (Small / Medium / Large) come from the V3 Master Summary table and are larger than the tile-codes — they are the completed-sample full-suite areas.

Professional Office Sub-types — II

Academic and Civic complete the five Professional Office sub-types. Academic uses forward-facing seating, so the European Lighting Standard's 6 m Habitatat minimum does not apply (workstations remain compliant); Civic carries the widest Corridor (3.6 m / 12') across all sub-types for public assembly egress.

Private Office

Private Office is distinct from Professional Office. Three sizes (PO-1 / PO-2 / PO-3); no bilateral corridor — each office opens directly onto the shared building corridor.

P0-1 Private Office Small 325 SF · 30.2 m² Minimum size — 1 desk, chair, three-person round table, filing cabinet, credenza, bookshelf, coat rack; with German Circulation Law and Façade Frontage compliance.	P0-2 Private Office Medium 465 SF · 43.2 m² Adds a second desk, chair, and credenza to PO-1 — roughly 100 SF larger, not double.	P0-3 Private Office Large 685 SF · 63.6 m² Three-person private office configuration.
---	---	--

PRIVATE OFFICE ZONES

Same zone vocabulary as Professional Office, but with no internal corridor. Habitat marginally under 6.0 m.

■ Zone 1 Habitat	5.9944 m
■ Zone 2 Magazine	1.3716 m
■ Zone 3 Corridor	none

Total width 14.73 m · 48'4"

Flagged for review. Habitat 5.9944 m is marginally under the 6.0 m European Lighting Standard (V3 table rounds to 6.0 m / 19'8"); confirm on final Key Plan sign-off. Corridor is zero because each office opens directly onto the shared building corridor — no internal bilateral corridor.
