

Key Plans Index

Professional Office sub-types, zone depths, and key plan areas — read live from the `professional-office-subtypes.dtcg.json` and `building-width-calculator.dtcg.json` token files.

AGENDA — FOUR CONTENT SLIDES

- 01 Comparison Table
- 02 Professional Office Sub-types — I
- 03 Professional Office Sub-types — II
- 04 Private Office

All values from building-width-calculator.dtcg.json and professional-office-subtypes.dtcg.json. Building Width = 2 × (Z1 + Z2 + Z3). Key Plan sizes are the FFE-tier footprints (Small / Medium / Large).

Zone 1 — Habitat (desks) Zone 2 — Magazine (storage) Zone 3 — Corridor (circulation)

Private Office is distinct from Professional Office. Three sizes (PO-1 / PO-2 / PO-3); no bilateral corridor — each office opens directly onto the shared building corridor.

P0-1

Private Office Small

325 SF · 30.2 m²

Minimum size — 1 desk, chair, three-person round table, filing cabinet, credenza, bookshelf, coat rack; with German Circulation Law and Façade Frontage compliance.

P0-2

Private Office Medium

465 SF · 43.2 m²

Adds a second desk, chair, and credenza to PO-1 — roughly 100 SF larger, not double.

P0-3

Private Office Large

685 SF · 63.6 m²

Three-person private office configuration.

PRIVATE OFFICE ZONES

Same zone vocabulary as Professional Office, but with no internal corridor. Habitat marginally under 6.0 m.

Zone 1 Habitat	5.9944 m
Zone 2 Magazine	1.3716 m
Zone 3 Corridor	none
Total width	
14.73 m · 48'4"	

Flagged for review. Habitat marginally under the 6.0 m European Lighting Standard — to be confirmed on final Key Plan sign-off. Corridor is zero because each office opens directly to the shared building corridor.
